Ball Construction
PO Box 1202, 5 Shirley Ave
Kitchener, ON N2G 4G8

To whom it may concern:

**RE: Steve Kerr Memorial Complex
965 Binning Street West, North Perth**

On behalf of Barry Bryan Associates, Architects, Engineers, Project Managers (BBA), it is my pleasure to provide this positive letter of recommendation for Ball Construction Inc.

BBA is proud to have worked with Ball Construction in the successful execution of this project. The project was complex and required special attention to the budget and schedule. Ball closely managed the project through the duration of the design to ensure the project milestones and objectives were satisfied within the budget and schedule.

Some key features of this project included:

- New NHL sized rink with spectator seating for 766 plus 15 barrier free seats and 170 standing
- 6 large capacity change rooms
- 2 lane walking track at 220 +/- metres per lap
- "Blue Line" room for spectator viewing for 150 persons
- Concession and multi-purpose room for 225 persons
- Designed for an additional NHL sized rink, and a future 6 lane 25.0m pool
- Gross floor area: 6.174m²
- Parking: 300 spaces including 8 barrier free spaces

BBA worked together successfully throughout the project with Ball Construction to fast track resolutions to site issues. We understand the project was an overall success for facility user groups and the public.

The completed project in our opinion was a success for the Municipality of North Perth.

Yours very truly,

Barry Bryan Associates
Architects, Engineers, Project Managers
