To whom it may concern

**Re: Ball Construction - 530 Manitou Drive, Kitchener Ontario**

The cannabis growing facility at 530 Manitou Drive is a first for the region and Ball Construction's attention to detail, command of the schedule, and control over construction value delivered the project on time and on budget.

Ball Construction demonstrated agility in coordinating the needs of their client, James E. Wagner Cultivation Corp, as their facility requirements took shape and were realized in the highly scrutinized and fledgling market of legalized cannabis production and products.

With kind regards,

MARTINSIMMONS ARCHITECTS INC.
